

The co-organisers, the BFVEA and ASIACT are very pleased to announce they will host the World Rainbow Vibrational Essence Conference. It will be held at Dev Aura in Tetford, Lincolnshire, which is designated as an 'Area of Outstanding Natural Beauty'. The surrounding hills have been recognised for their significant energetic qualities.

Dev Aura is a residential teaching facility well known for its "special energies" and unique qualities in a beautiful setting. The house and grounds have become a haven of peace and tranquility for many teachers from the UK and around the world, who hold a variety of courses.

The BFVEA is a professional organization which has been established for over 10 years. The membership consists of practitioners and tutors of flower and vibrational essences. It aims to support their best interests, as well as providing an information resource for the general public.

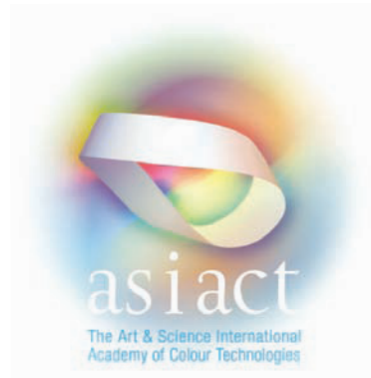

We anticipate that this Conference will be an exciting and memorable one. Timed to coincide with the Spring Equinox there will be two surprise evening events.

We all look forward to this opportunity to get to know you and to welcoming you to this historic area.
